

TARIFF BILL CAUSES MUCH DISCUSSION

THE SENATORS CANNOT AGREE, IT SEEMS.

Senator Gorman Is In Favor of a Substitute Measure—Other Leading Democrats Oppose It—The Cuban Situation Fully Discussed By the Cabinet.

Washington, May 15.—There is some difference of opinion among the Democratic members of the senate committee on finance as to the policy to be pursued in regard to the tariff bill.

Some of them, notably Senator Gorman, are of opinion the Democrats should prepare a substitute bill and introduce it. They contend that the Wilson law is not a clear embodiment of Democratic tariff doctrine, in that it not only does not produce sufficient revenue, but that it carries many features which were inserted at the instance of Republican senators in order to secure its passage through the senate.

There is, however, pronounced opposition to this programme on the part of many Democratic Senators, including several members of the committee on finance. They take the position that the safest course for the party is to stand by the Wilson bill, which, while it is not perfect, is still a Democratic measure. The party, they say, has taken the position that no tariff legislation is necessary. The campaign was fought on another, and they hold that to raise the tariff question on their own motion would be inconsistent and unwise. Those who hold to this idea are willing that amendments should be offered covering all the schedules, and it seems probable that this course will be pursued.

The amendments will provide rates practically on the line of the Wilson bill.

TAKES UP CUBA.

Cabinet Discusses the Question of Immediate Relief for Americans.

Washington, May 15.—The meeting of the cabinet Friday was devoted almost entirely to the consideration of the Cuban situation. The discussion was upon the advisability of asking congress to provide immediate relief to the Americans who are, according to the reports received from Consul-General Lee, penned up in the cities and in actual danger of starvation. It had no bearing upon the policy of the administration toward Spain or the Cuban insurgents, except incidentally, but dealt with the direct and immediate question of relieving destitute Americans on the island.

The final decision of the question was postponed until Consul-General Lee and other American consuls in Cuba and probably Mr. Calhoun make their reports by cable to the department. They have been requested to cable the latest facts as to the existing situation. It seems extremely probable now that a message will be sent to congress, but hardly before Tuesday, as there would be no time to prepare a message before that day unless Mr. McKinley devoted Sunday to the task.

A. P. A. Denounces Senator Vest.

Washington, May 15.—The supreme council of the American Protective Association adopted resolutions endorsing the attitude of Senator Morgan, of Alabama, on the Cuban question, and condemning and denouncing Senator Vest, of Missouri, for assertions that teachers in the Indian service are broken-down preachers and teachers, to whom the Catholic priests are far superior. The president's salary was increased to \$3,000 and that of the secretary to \$2,000. It was decided to organize an insurance feature of the order, and the work of putting it into practical operation was left to the executive board. The council adjourned to meet in this city again next year.

Washington, May 15.—Senator Mills has received a letter from Minister Terrell, who says that all the talk of the Turks expelling Missionary Knapp from Turkey is untrue. Mr. Terrell says that Knapp was frightened into leaving his post at Bitlis, near the Russian border. He also says Knapp can return to Turkey when he pleases.

A MEETING TO STOP STRIKES.

Big Chicago Contractors to Hold Secret Conference.

Chicago, May 15.—Contractors from every trade in the building line, building material men, architects, real estate dealers and others met in secret conference in the rooms of the Builders' and Traders' Exchange at 1 o'clock this afternoon to outline a policy for the mass meeting to be held Monday afternoon in relation to the attitude of the Building Trades Council on the sympathetic strike question.

Those back of the meeting say that a united and determined effort is to be made to do away with general building trade strikes in the future. Failing in this, the contractors and others say they will combine and force the issue; that the first time there is a general strike they will pool their issues just as the building trades unions do through the Building Trades Council, and then the fur will fly.

Longshoremen on a Strike.

Detour, Mich., May 15.—The tug River Queen, with Sheriff McNaughton and five deputies on board, reached here from Sault Ste. Marie Thursday night, and at first the striking longshoremen on Pickands, Mather & Company's dock refused to allow them to land. Finally the strikers relented and allowed the tug to tie up at the dock. The Sheriff's force was too small to attempt to clear the dock, and read the riot act to the strikers and persuaded them to clear the premises. They did this, but lined up at the foot of the dock and refused to let any non-union men go on the dock. Work on the dock is at a standstill and more trouble is expected.

Killed by Cattle Rustlers.

Sioux City, Iowa, May 15.—Dispatches received here from Ord, Neb., announce the fatal shooting there of Gideon Summers, a cattle-buyer, by a man named McBride, said to be a Boyd county cattle-rustler. McBride escaped to the sand hills, where a sheriff's posse of fifteen men is searching for him.

THE TRADE REVIEW

BY DUN & COMPANY

BUSINESS FOR THE WEEK IS DISAPPOINTING.

Report Says It Has Not Been As Active As Was Expected—Increase In Exports Of Wheat and Flour—Failures Have Decreased During the Week.

New York, May 15.—R. G. Dun & Co.'s Weekly Review of Trade says: "Speculators have enjoyed an advance in wheat, corn, cotton and some other products, though obliged to sell wool and sugar at lower figures in order to realize. Stocks have advanced 7 cents per \$100, and trust stocks lost 38 cents without enough demand to constitute a market. Imports of merchandise, \$18,382,019 for the week at New York alone, are 94 per cent larger than a year ago, making the increase 47 per cent for the last six weeks, and have affected the exchange markets and helped further shipments of gold, which amount for the week to \$2,750,000, but are practically balanced by receipts from the interior, and cause no serious apprehension of financial disturbance.

"The government crop report estimates the cotton acreage at 6 per cent less than last year, and is considered encouraging because so slight a decrease from the floods may easily be made up. Prices have advanced an eighth on Liverpool speculation, with nothing here to warrant the rise. No important changes appear in pig iron. The demand for finished products is below the capacity of works in operation, and the award of the contract for the Montreal bridge, which is said to be at 90 cents for beams, against \$1.55 demanded from consumers in this country, has occasioned trouble in the beam association, and there are reports that it has dissolved. Woolen goods are doing better than for weeks past, although there is great uncertainty regarding the future of the market. Sales of wool have sharply decreased. "Failures for the week were 264 in the United States, against 224 last year, and 31 in Canada, against 33 last year."

FRED HOELMAN IS HANGED.

Murderer of Mrs. Geddes Executed at Paxton, Ill.

Paxton, Ill., May 15.—Fred Hoelman, alias Hartman, was hanged in the jail in this city Friday morning in the presence of about fifty witnesses, consisting of the jury which convicted, the bar, county officers, attending physicians. He declared his innocence at the last moment. Hoelman, alias Hartman, was hanged for killing Mrs. Wiebke Geddes, having been convicted on circumstantial evidence. Mr. Geddes, the husband, worked on a farm more than a mile from his home. On a morning in December, 1896, he got up at 4 o'clock and went to his task of husking corn. At 8 o'clock a neighbor called at the home and found the body of Mrs. Geddes on the floor of her room with a cord around her neck. The other end of the cord being fastened to a doorknob. Beneath the bedclothes on the floor was her little daughter crying. The slats of the bed were scattered around the room and there was other evidence of a fearful struggle, one of the legs of Mrs. Geddes being broken and her body being covered with bruises. Marks on the neck of the little girl showed that she had been choked, doubtless into insensibility, and, possibly, left for dead. Hoelman, who was suspected, told contradictory stories as to his whereabouts, and the circumstantial evidence presented by the prosecution was sufficient to convince the jury that he was guilty of the crime. He is believed to have killed several other women in this part of the state in the same way, but escaped suspicion and arrest, as the coroners' juries rendered verdicts of suicide.

THE ROBBERS GET \$10,000.

Hold Up a Southern Pacific Train at Los Angeles, Texas, and Escape.

San Antonio, Texas, May 15.—The westbound Southern Pacific passenger train was held up by masked men and robbed about 250 miles west of here early Friday morning. After forcing in the doors of the express car, one of the robbers entered the car, and, with dynamite, blew open the two safes of the Wells-Fargo Express Company. Both the through and the local safes were opened and the contents secured. The local safe contained about \$2,000 or \$3,000. The amount secured from the through safe is unknown, but it is believed that it will not fall below \$7,000 or \$8,000. The express car was badly wrecked by the explosion. The mail was not molested by the robbers, but it was greatly damaged by the dynamite. Officers are in pursuit of the robbers, who fled northward.

DEPERATE FIGHT ON.

Greeks Attack the Enemy on the Road to Philippiada.

Arta, May 15.—Desperate fighting has been in progress all day near Griboro, on the road to Philippiada.

Two brigades of Greeks, with many guns, two companies of sappers and a squadron of cavalry attacked the Turks, who were almost without artillery. The Greeks forced the first Turkish line of defense, but met with a stubborn resistance at the second. In several places the bayonets were so close to the cannon that they (the bayonets) could not be used.

The fighting at Griboro ceased at 9 p. m. and the Greeks have occupied various heights in the neighborhood. Twenty-five officers and 400 men are hors de combat. The battle will be resumed to-morrow.

Germany Is Urging Moderation.

Paris, May 15.—It is believed here that there is no doubt Germany is urging moderation upon the Sultan of Turkey. The powers, it is semi-officially intimated, do not intend to press Greece to surrender her fleet as payment of the war indemnity which Turkey will presently demand. Greece, in this respect, will be allowed full liberty. The powers are trying to make arrangements to enable Greece to meet the demands of Turkey without injury to the previous creditors of Greece.

Sultan's Demand Is Preposterous.

London, May 15.—The apparently authentic statement that Turkey intends to demand the ceding of the Greek fleet as an essential condition of peace is eagerly discussed here, both by the press and the politicians. It is contended that if Turkey gets the Greek ships it will be equivalent to handing them over to Russia, thus upsetting the balance of naval power in the Mediterranean.

Three hundred and seven missionaries are employed in the home field and thirty-seven American missionaries in foreign fields.

SAY DURRANT MUST HANG!

Gov. Budd Said to Be Disinclined to Interfere with the Sentence.

Sacramento, Cal., May 15.—If external appearances go for anything, Gov. Budd was not favorably impressed by the arguments advanced by Durrant's attorneys in their plea for executive clemency in behalf of the condemned murderer of Blanche Lamont. Absolutely no credence was apparently placed by any one, unless by the prisoner's attorneys, upon the alleged confession of Convict John Rosenberg of San Quentin prison, who declared he had murdered Blanche Lamont for \$700 at the instigation of a stranger.

Another Wire Nail Pool.

Pittsburg, Pa., May 15.—Manufacturers of wire nails, wire and rods are about to form a combination to control the market for all three products. The policy outlined will only include a moderate advance in the price of each product, and not the extortionate price under the regime of the nail pool. a Satisfactory One.

The plow manufacturing season with the Janesville Machine Company is now practically at an end and the first year's work in this line has been satisfactory. Orders were received from all parts of the country, and as one of the directors said, the only drawback was that they did not have enough room at the factory. If the business continues to increase it is thought that a plow department demanding a separate building will be established.

TWO DAMAGE SUITS

TO COME TO TRIAL

SELLECK CASE IS SET FOR
MONDAY.

Plaintiff Seeks to Recover \$5,000 From
the City For Injuries Received By a
Fall On a Sidewalk—Lawrence
Ward Asks Pay For the Loss
Of a Toe.

Two interesting damage suits will come up for trial in the circuit court next week. The case of Mary E. Selleck vs. the city of Janesville, is to be taken up on Monday morning. The plaintiff seeks to recover \$5,000 for personal injury. Mrs. Selleck, it is said, will be a cripple for life, and is now ill in Evanston. In 1893, while walking along South River street, and while in front of the Tallman property at the corner of Milwaukee and River street she fell, injuring herself, it is said, so that she can never fully recover. She then commenced a suit for damages against the Tallman estate but the supreme court dismissed the case as far as the Tallman estate was concerned. The suit against the city still stands. Fethers, Jeffris, Field and Mount appear for Mrs. Selleck, while City Attorney McElroy will look after the interests of the city.

Whether or not Lawrence Ward's toes are valued at \$5,000 each is a matter that will also be decided this week Ward sues the Chicago, Milwaukee & St. Paul road. The case has once been tried, and the jury disagreed. During the Woodmen's picnic last year, Ward, while riding on a passenger train, caught his foot between the bumpers. One foot was so injured that the amputation of a toe was necessary. He therefore brought suit.

The day calendar for Monday is as follows:

Mary E. Selleck vs. City of Janesville.

Ruth Amelia Beaver vs. Oliver J. Beaver.

Geo. Sims vs. Mut. Fire Ins. Co. of LaPrairie etc.

James E. Croft vs. Wm. Heise.

Mary E. Bradley vs. James H. Lanphier.

John S. Anderson vs. Jere Honeysett.

Paul O. H. Reed vs. Sidney Richards.

Chas. P. Kellogg Co. vs. F. A. Smith et al.

Henry Hamilton vs. Emma Hamilton.

Robert McKee vs. Joseph Litney.

Irene L. Cust vs. Joshua Crall.

Alfred P. Selleck vs. City of Janesville.

G. E. DAVIS GETS FOUR YEARS.

Miss Maud Ward's Husband Is Sent to
Waupun.

George E. Davis was sentenced to the penitentiary yesterday for four years for bigamy. Davis, who has a wife and child living in Chicago, was employed by the Milwaukee Street Railway company. He became acquainted with Miss Maud Ward, of this city, who was attending the Normal school in that city. Shortly after he married Miss Ward, but the fact that he had another wife living became known and he was arrested. He pleaded guilty before Judge Wallber yesterday morning.

When asked by the court whether he had anything to say before sentence was passed upon him, Davis said that he had voluntarily come back from New York for the purpose of delivering himself up. In reply to a question by the judge, he said that at the time he married Miss Ward last fall he was fully conscious of the fact that he then had a wife and a child living in Chicago. When asked "What made you commit bigamy?" the prisoner said that was a peculiar question to ask him, and that a frank and true answer to it could hardly be expected. Miss Ward was not present in court, the district attorney stating that she was suffering from nervous prostration.

Twinges, Aches and Pains
Are Fugitives From

Before Dodd's Kidney Pills Afforded Protection, They Ran Rheumatically Rampant Like Unpunished and Unterrified Midnight Marauders.

Minneapolis, Minn., May 15—H. T. Elliott of this city, has been cured of rheumatism of an acute and severe kind. He testifies that his disease was cured by Dodd's Kidney Pills.

Nobody can tell you anything about the pains and twinges of rheumatism except one who has felt them. No condition of life is free from its incursions. It invades mansion and hut. It afflicts old and young, good and evil, strong and weak, alike.

Science attributes its cause to the presence in the blood of uric acid; in other words, the blood is not chemically pure. This is a roundabout way of saying that the kidneys are not performing their office as they should.

There are many roundabout ways of trying to cure rheumatism, also, but the safest, surest way—because the most direct way—is to correct the action of the kidneys by taking Dodd's Kidney Pills.

Were we to tell you of people in far-away states who have been thus cured, you might doubt it. But can you doubt the testimony of people living in this immediate vicinity who step up and are counted among the multitude who have been well and happy by DODD'S KIDNEY PILLS?

We submit the brief of Mr. Elliott. DODD MEDICINE CO., Buffalo. Gentlemen: For ten years I have been troubled with rheumatism; could get no relief. I read of Dodd's Kidney Pills and got a box at Voegeli Bros.' drug store and after taking part of the box, I found relief. Before I commenced to take them I could not cross my legs. Now I am at ease, and can say that I am perfectly cured. H. T. ELLIOTT.

INDIAN WISDOM.

Their knowledge of the Curative Properties of Herbs considered remarkable.

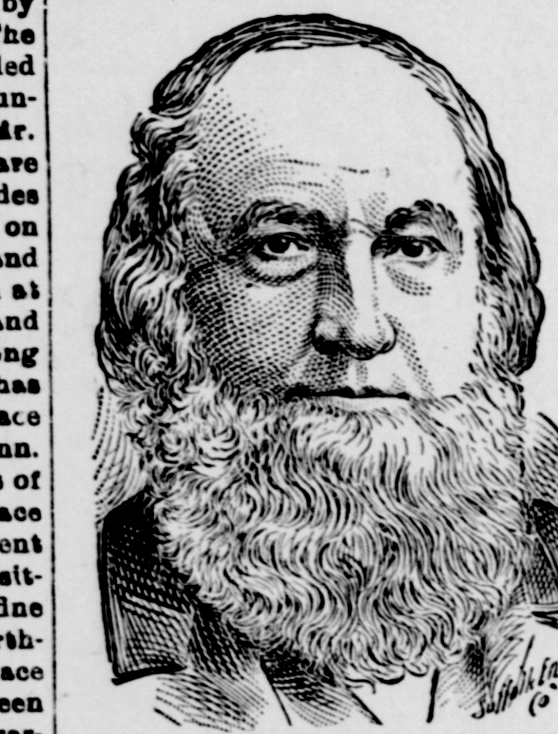

A noted Professor, Dr. C. von Spiegel of Saratoga, N. Y., credits them with many remedies used by him in effecting difficult cures.

Useful hints to many who suffer, where they might enjoy the Indian's proverbial good health and longevity but for the prejudice of Ignorance.

The once existing idea that no possible good or knowledge could be obtained from an Indian is fast disappearing. When such a man as Dr. C. von Spiegel of Saratoga Springs, in an article published in the daily Saratogian of Sept. 11, states that he is indebted, not only to the North American Indians—Kickapoos, Cheyennes, Arapahoes, Pawnees, Apaches, Kiowas, Comanches, etc., but to the many so-called uncivilized nations of the most remote corners of the globe—for his enormous collection and the knowledge of their virtues, of roots, herbs, barks, gums and balsams, by whose use he has effected the most extraordinary cures in innumerable desperate cases, it would seem that the world at large should no longer hesitate to look for help from such simple but potent agencies—no matter their origin—instead of dragging out miserable lives of sickness that is aggravated by poisonous mineral drugs.

PROF. CHRISTIAN VON SPIEGEL, M.D.

With such words of praise from a man of Dr. von Spiegel's standing, a regular physician, a graduate and member of several universities, a man who has built up an enviable reputation by his many cures, some of which have been almost miraculous, we are doubly encouraged to call the attention of suffering humanity to the merits of our all-powerful medicine, *The Kickapo Indian Remedies*.

The best known of these is Kickapo Indian Sagwa, that greatest of blood purifiers and corrector of all derangements of the stomach, kidneys and liver. It is purely vegetable and contains no poisonous ingredients whatever. Thousands are enjoying healthy, happy, active lives today, who but for its timely use would now be leading the miserable life of a dependent cripple, or filling a premature grave, the victims of bad blood, nervousness, consumption, dyspepsia, rheumatism, dropsy, kidney and liver complaints.

Each year it becomes better known and more highly appreciated. Each day hundreds join the happy ones who have been cured by its use and sing its praise.

We want sufferers everywhere to give it a single trial. You will be convinced of its merits and bless the day you first heard of Sagwa. All druggists sell it.

If you wish medical advice free, write us; one of our staff of physicians will gladly give you such information as you may desire. The Kickapo Indian Medicine Co., New Haven, Conn.

Spring Humors

During the colder season impure humors accumulate in the blood.

The surface of the body being chilled, the pores are closed and clogged, and impurities which might pass off in perspiration are forced back into the blood. Besides this, winter's hearty food, fats and sweets, contribute more impurities.

This briefly explains the existence of Spring Humors—those unsightly eruptions, painful boils, annoying pimples and other affections, which make the use of Hood's Sarsaparilla absolutely necessary at this season.

But with some people, impurities in the blood cause very different symptoms. The kidneys, liver and bowels are overmatched in their efforts to relieve the clogged system. Dizzy headaches, bilious attacks, failure of appetite, coated tongue, lame back, indigestion or that tired feeling are some of the results.

From the same cause may also come scrofula, neuralgia sciatica or rheumatism.

All these troubles and more may properly be called "Spring Humors," and just as there is one cause, a cure is found in just one remedy, and that is Hood's Sarsaparilla.

Hood's Sarsaparilla purifies the impure blood.

Hood's Sarsaparilla enriches that which is weak and thin.

Hood's Sarsaparilla vitalizes that which lacks vitality.

Hood's Sarsaparilla leads in Merit, Sales and Cures.

THIS DAY IN HISTORY

1740 — Ephraim Chambers, founder of the famous encyclopedia, died in London.
1778 — Alban Butler, author of the "Lives of the Saints," died.
1832 — Edmund Keane, the great tragedian, died; born 1787.
1847 — Daniel O'Connell Irish orator and patriot, died at Genoa; born 1775. Although familiarly called "the Liberator," O'Connell had no sympathy with the revolutionary spirit of his time. He once declared that he would "accept of no social amelioration at the cost of a single drop of blood."
1892 — A veritable deluge along the lower Mississippi and the greater part of the Mississippi.
1896 — Sherman, Tex., devastated by a cyclone; over 100 deaths. Rear Admiral Thomas H. Stevens, U. S. N., retired, died at Rockville, Ind.; born 1819.

NEW SOURCE OF PROFIT FOR FARMERS

Secretary of Agriculture Wilson says that in ten days following May 1 his department has distributed sugar beet seed to twenty thousand farmers of the U. S. He expresses the opinion based upon experiments conducted during the past year or two and on investigations of the industry in Germany, that beets can be successfully raised and sugar manufactured therefrom in the United States. From consular reports it is learned that practically one half of the German refineries are conducted on the co-operative plan. The lack of refining facilities in the United States has up to this time curtailed the culture. Owing to the cost of establishing a plant and the large scale on which it must be conducted, the only section where the business of refining has been an economic success is the Pacific coast. The Dingley tariff bill promises to surmount one of the difficulties, in that sugar refining machinery will be admitted free of cost. Experts who have examined into the subject believe that agricultural districts near large consuming centers, possess an advantage in the form of lower freights, cheaper raw material and labor, that will go far towards offsetting the advantage now controlled by the trust, owing to the gigantic scale on which it does business. In Wisconsin the first experiments have been marred by mischance, but the vigor with which the national and various state governments has taken hold of the matter, insures at least a fair trial. The sugar trust is already beginning to worry over the possibilities in this line and has already made an effort to acquire certain of the plants now in operation on the Pacific coast.

When Mrs. Lease declared that Oklahoma cloudburst to have been a visitation of Providence she was probably only trying to get even for having been so often called the same thing herself.

Mr. Bayard's anxiety to bring over those Mayflower documents probably arose from the hope that they might secure him some sort of a public reception in Boston.

It is not among the probabilities that the democrats of New York and Maryland will endorse free silver in their state platforms, whatever they may do in other states.

Perhaps it is his conscience that has prompted Gov. Taylor, of Tenn., to announce his intention to resign in the fall.

The majority of the house are showing that they have themselves well in hand, and are not to be stampeded.

Traveling Men at Leavenworth.
Leavenworth, Kan., May 15.—The United Commercial Travelers took almost complete possession of the city Friday, nearly 1,000 having arrived. The state grand council was formally opened at 11 o'clock. The grand secretary reported fifteen councils in its jurisdiction, with a membership of 1,019, a gain of 378 during the last year.

Lucania Breaks the Record.

Queenstown, May 15.—The Cunard line steamship Lucania, Capt. McKay, which left New York May 8, clearing Sandy Hook lightship at 11:15 a. m. that day, arrived here at 7:24 a. m. Friday, after a passage of five days fourteen hours and fifty-four minutes, during which, over the distance steamed, 2,939 knots, she made the best time on record, 21.80 knots per hour.

FINE Mediterranean oranges, heavy and sweet a large invoice just received at Sanborn's.

Chicago, May 15.—[Special]—The wheat market has ruled about three cents higher during the week. The principal stimulation has been a good shipping demand, being a million bushels of wheat alone from the seaboard. In fact, it is being shipped as fast as it arrives at tide water, and there is no longer any question about the demand being able to absorb the supply before the next harvest. But there is lack of speculative confidence, and quotations are made by professional speculators who ignore the consumptive demand and with propriety for a consumptive demand alone never advances values but is a solid foundation to build a bull market on. Cash wheat in New York has been remarkably strong and in the north west cash and July wheat are now above us, so we are not likely to get any addition to any stock of wheat here until September. Our receipts are nothing and will remain nothing so whatever goes out will go out of store. Crop reports are about the same. The damage in California is confirmed and after supplying Japan and Australia there will not be very much left for export to Europe. India and Argentina will not be able to supply anything and our home millers will absorb the early deliveries of winter wheat. So from a business point of view there is nothing to sell wheat on except the absence of any real bull factors as yet. Some selling has been done on probable trouble with Spain, but that is ridiculous.

A war should be a bull agreement on stocks and it is secret history that Cleveland expected his Venezuela proclamation to bull the stock market and he and his friends were the worst fooled people in America when they found out what they had done, but after all Cleveland's ideas was correct. A war would stimulate industries, but there will be war on account of Cuba. A good round lot of wheat was taken for direct export today. Our stock of contract wheat will decrease about 700,000 for the week and even at that rate it will all be gone by the middle of July. Oats for May delivery have at times been higher than future delivery. This would indicate a scarcity of spot oats and seems to contradict the theory of abundant supplies upon which our very low prices are based. In some sense the same is true in regard to corn which has ruled very firm for the spot article, but eased off towards the close in expectation of large receipts for delivery on May contracts.

Senator Mallory spoke before a large gathering in the house of representatives at night. He said that he endorsed all of the planks of the Chicago platform, dwelling particularly on the financial question, and advocating the free coinage of silver at the ratio of 16 to 1 regardless of foreign countries. He did not express decided views on the tariff question.

BEDRIDDEN.

FIFTEEN YEARS OF SUFFERING.

The Doctors Wanted Seven Hundred Dollars to Attempt the Cure.

The following is a letter we received a short time ago from Mrs. M. C. Hinkley, 602 North Mississippi St., Indianapolis, Ind.
"Gentlemen:—While suffering intensely from piles, I became interested in your advertisement in one of our daily papers and procured a package of your Pyramid Pile Cure from our druggist. Contrary to any expectations, the relief was instantaneous. I used two boxes of the Pile Cure and one of the Pills and am convinced that they are the only sure cure for piles on the market. I have been a sufferer from piles for fifteen years and have been confined to my bed about one-half of the time, expecting and wishing for death for the pain was so great. I went to the college here and the doctors said my case was a new one to them, the great pain having brought on a large rupture, which they wanted seven hundred dollars to cut out. I was very much afraid that death would result from the blood-poisoning which they said would result from the operation. I feel as though I can't praise the Pyramid Pile Cure and the Pyramid Pills too highly, as I am convinced that they saved my life. Before using your cure I weighed only ninety pounds and now weigh one hundred and fifty and feel as well as I ever did in my life. You are at liberty to use this testimonial in any manner you may see fit, as I want all sufferers from this terrible disease to know that there has at last been compounded a remedy that will cure piles."
MRS. M. C. HINKLEY.

There is no need of the danger, pain and expense of a surgical operation for any form of piles. The Pyramid Pile Cure does the work without pain and is the safest and best. Remember also that the Pyramid Pills are a certain cure for constipation, acting without griping and restoring natural action to the bowels.
The Pyramid Pile Cure is sold by druggists at 50 cents and \$1.00, and the Pyramid Pills at 25 cents or by mail from Pyramid Co., Albion, Mich.

TERRILL'S FATE NOT YET KNOWN

Agreement Has Not Yet
Been Reached

THE CASE WAS CONCLUDED
THIS MORNING.

Closing Arguments Were Made and the Fate of the Defendant Was Put In the Hands of the Twelve Men at 11:50 O'clock—Judge's Charge Defined the Different Degrees of Murder, and Was Complete and Very Impartial.

Stephen Terrill's fate was still undecided at 4:30 o'clock this afternoon. For five long hours the defendant has been kept in suspense as to his future, while the dozen men balloted behind locked doors.

It became apparent soon after the jury left the court room, that they would not reach a decision at once. Lawyers said, after time enough to take two or three ballots had elapsed, that the jury members were apparently not of one mind and that some discussion would be necessary before they reached an agreement.

After dinner, the jury rapped on the door and asked for a copy of the court's instructions. This was prepared, and given to them, and the door was again locked. Still later they asked for cigars, and it was evident that they had not made up their minds as to the guilt or innocence of the defendant.

Went to the Jury.

The case went to the jury at 11:30 o'clock this morning. Attorney Spenceley, for the defense, finished his plea this morning, and Attorney Jenks concluded the case for the prosecution. Judge Bennett then read his charge to the jury. He explained the different degrees of murder and manslaughter, and instructed the jury in their duties. The charge was said to be an especially fair and complete one, and the jurors listened intently. Blank forms for the verdict were furnished, and the jury then filed into the "star chamber" in charge of Sheriff Acheson and Deputy Bear.

Their dinner was brought to them at 12:30 o'clock, and the men did not leave the jury room to eat it.

The defendant was taken back to jail, and court was adjourned until 2 o'clock this afternoon.

The Scene in Court.

Terrill was greatly interested in the charge to the jury. He did not miss one word that fell from Judge Bennett's lips. His gaze wandered from the twelve men who were to decide his fate to the judge, and from the judge back to the jury. His aged mother sat beside him, and eagerly listened to every word said.

When the jury filed out of the box with Sheriff Acheson in the lead, and Deputy Bear bringing up the rear, Terrill's sisters came up to his chair. Terrill and his mother arose, and the party stood there talking earnestly. Turnkey Samuel Brown stood nearby, and Attorney Spenceley talked for a few moments with the accused and his family. Then the little party broke up, and the defendant left the court room with Turnkey Brown for the jail.

THE VALLEY OF THE SHADOW.

Funeral of Mrs. Cochrane.

All that was mortal of the late Mrs. John E. Cochrane was laid to rest this afternoon in the cemetery at Magnolia. Impressive services conducted by the Rev. Robert C. Denison, were held this afternoon from the residence at 1 o'clock at the close of which the remains, followed by many friends were taken to their final resting place. The pall bearers were John Spon, O. P. Brunson, Shephard Lee, Adam Thorburne, William Gibson and Solomon Spon.

Mrs. Cochrane was seventy-eight years, five months, and twenty-three days of age, and was a woman loved and esteemed by all. In 1841 she was married, at Red Bank, N. J., to George W. Cochrane. They were blessed with five children—three sons and two daughters—who are now living.

In 1864 Mr. Cochrane died at Poughkeepsie, N. Y., and Mrs. Cochrane came west, settling in the town of Center, where she resided for ten years, afterwards moving to this city. While a resident of Janesville she spent her summers here and her winters in the east. She was a member of the Methodist church, but since making her home in the west she had affiliated with the Congregationalists.

The children who are left to mourn her loss are: Mrs. Margaret Venable, Red Bank, N. J.; and Mrs. David Acheson of Magnolia; Charles Cochrane of Brooklyn, N. Y.; James Cochrane of Spring Valley, and Wallace Cochrane of this city.

An Aged Man Is Pleased.

The following is taken from a recent letter written to Dr. McPherson, the eye specialist of this city, by Mr. Henry J. Benham, of Fort Atkinson, Wis.:

"May 10, 1897—Dr. E. M. McPherson, Janesville, Wis.:

Dear Sir—I will now write you a few lines with those new eyes you gave me. I can read any kind of print without any trouble. It seems good to be able to read and write once more, after being blind for more than two years, etc."

Mr. Benham, who is almost 80 years old, had a cataract removed by Dr. McPherson on Jan. 20 of this year. We take pleasure in presenting this much of the long letter written by Mr. Benham, as it shows the kind of work Dr. McPherson is doing for his patrons.

TWO MEN SENTENCED TO WAUPUN CELLS

ROEHL GETS TWO YEARS IN PRISON.

Man Who Robbed Leopold Koesters Is Punished—Arthur Robinson, Who Looted G. H. Erredge's Store Gets a One Year Term—Both Plead Guilty.

W. C. Roehl, who robbed the Germania Hotel of \$80 was sentenced, this morning, to two years at hard labor in the states' prison at Waupun.

Arthur Robinson, who robbed the George H. Erredge barbor shop of about \$120 worth of stock was given one year in prison at hard labor.

Both men when arraigned this morning in the municipal court and both pleaded guilty.

Koehl stood before the bar at 10 o'clock to receive sentence. He was nervous, for he knew well that the fact that he had once been in prison would tell against him. His honor, Judge Phelps, went over the facts in the case and then pronounced sentence. Roehl shed tears as he was led to jail by Sheriff Acheson.

Robinson sat in prisoner's row nervously twirling his felt hat, while Roehl's case was under consideration. Then the court asked him if he had anything to say. Robinson told the court his past record. He said that he had never been imprisoned for any offense. Of late years he has wandered the country over from one end to the other and finally got in trouble in this city. He said he was twenty-five years of age. Robinson shed tears after he was sentenced, and Chief Hogan took him back to his cell.

TALK OF THE BAND CONCERTS

Plans Being Made For Open Air Music This Summer

"When are the open air band concerts going to begin?" is a question that a number of the local merchants are beginning to ask. Merchants on both the east and west sides of the river were well pleased last year, and there is little doubt but what they will come forward again with the wherewithal when the proper time comes. In case the concerts are given at all, they will commence next month.

SHATTERED.

The Precarious Condition of Prof. A. H. Nye.

A Prominent Iowa Educator's Painful Experience as Related by Him to a Newspaper Man.

From the Gazette, Cedar Falls, Iowa.

The la grippe, that dread disease that had such a run throughout this country three and four years since, left many who were previously in robust health with shattered constitutions and seemingly confirmed invalids. Prof. A. H. Nye, living at No. 2500 Olive Street, Cedar Falls, Iowa, was among the number left by the disease in a precarious condition, his nervous system shattered, and with a general debility of his entire system; no strength, feet and limbs badly swollen, in fact, he was almost helpless. Prof. Nye is a native of New York State, having come west in 1886—a healthy, robust man. He is a school teacher by profession, having served as county superintendent of schools of this (Black Hawk) county, several terms, and he has the respect of all with whom he comes in contact. His helpless condition called forth the sympathy of the entire community. He tried the best medical skill procurable, and spent most of his ready means in the vain endeavor to recover his health, and had about given up completely discouraged. He had stopped taking treatment, being fully convinced in his own mind that there was no help for him, and that he would have to spend the balance of his days as an invalid, a burden to family and friends. Some one who had heard of Dr. Williams' Pink Pills, spoke to him about them and urged his giving them a trial. His poor success with eminent physicians made him skeptical and he had no faith in what was called proprie-

tary medicine, and would not listen to this advice for some days. The friend being persistent, however, and having faith in the Pink Pills, would not let up, until he had finally prevailed upon the sufferer to send for a box, which he reluctantly did, and after receiving them decided to give them a fair trial. The first box relieved him in a surprising manner; yet he was not convinced that it was the medicine that helped him, but the weather which had turned pleasant, and did not send for a further supply until he was again about as bad as before taking the pills. Then he concluded he would make another trial, and took three boxes, and to-day is nearly if not quite as well as before the attack of la grippe. It is needless to state he cannot say too much for Dr. Williams' Pink Pills for Pale People, for people who have been left in poor health from la grippe or any other cause. Any one wishing to test the validity of this letter can write Mr. Nye, No. 2500 Olive Street, Cedar Falls, Iowa, and he will cheerfully recommend the medicine, and state his condition before and after using.

Dr. Williams' Pink Pills contain all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are sold in boxes (never in loose form, by the dozen or hundred) at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or directly by mail from Dr. Williams' Medicine Company, Schenectady, N. Y.

HOUSEHOLD DECORATION.

Bright, Clear Colors and Light, Graceful Furniture Prevail.

There are fashions in furnishing as well as in clothes, and the fashion now is for bright, clear colors and light, graceful forms of furniture, although the latter must be convenient and comfortable for use as well as pretty. In returning to the delicate taste and luminous effects of the last century one need not abandon any of the conveniences of modern life. The Louis Quinze and Louis Seize styles are mingled in the fashionable dwellings of the day, but are insensibly modified from their original coldness and stiffness. Draperies of silks and muslins in pale pinks and greens, carpets with a white ground and lacquered furniture are characteristic of the period. Japanese silks are well em-

LITTLE GIRL'S HAT.

ployed in such interiors, Mme. de Pompadour having had a great fancy for all that was Japanese.

The hints given are intended only as the broadest generalizations, for each household is directly governed by its own convenience and taste, and the charm of the home lies in the personal, individual quality of the furnishings and decorations. That is given by the inmates alone, governed by their special requirements and desires. The professional decorator may do his very best and may produce a correct and practically satisfactory result to the eye, but the mind has also to be satisfied, and it will not be unless the personal living element is obvious in the management of the rooms.

Lacquered furniture is prettiest in white and ivory, but is also to be had in pale green, pale blue and mauve, decorated with gold lines. There is a fancy just now for having white furniture adorned with landscapes and marines in the delft style, but the effect is not particularly pleasing.

The illustration given in today's issue shows a hat for a little girl from 8 to 12 years old. It is of white straw entirely, covered with very narrow ruffles of sky blue mousseline de soie. At the left side are two aigrets or wings of plaited mousseline de soie and a cluster of white oxeye daisies with yellow centers. This hat would be equally pretty in white or ivory mousseline de soie and would accompany any gown. JUDIC CHOLLET.

BICYCLE COSTUMES.

No Reason For Quarreling Over the Style. A Matter of Taste.

There has been with us rather a lull of late with respect to the vexed questions of bicycle costumes, but warm weather will doubtless soon renew the controversy between skirts and bloomers. Why people must quarrel on the matter would be a mystery if quarreling had not long ago proved to be the natural state of the human race. There doesn't seem to be any reason why women who like bloomers should not wear them nor why women who prefer skirts should not wear them likewise and say no more about it. English riders seem to have definitely de-

BICYCLE COSTUME.

clared for the skirt as a class, but in France trousers are preferred by the majority. Here both are worn, but the skirt predominates. As for the divided skirt, that compromise is as unsatisfactory as compromises are apt to be. It combines the disadvantages of both trousers and skirt and the advantages of neither. If the woman who wears a full divided skirt could realize how she looks off her wheel when there is a breeze stirring, she would fly to ordinary bloomers as a protection.

Serge, covert cloth and chevrot are the favorite materials for cycling costumes. For summer wear there are suits of duck and denim. The white ones are a delusion and a snare, because no white gown looks well unless it is immaculate, and nobody can be entirely immaculate on a bicycle. There is the risk of falls to be encountered, the dust, the oil of the machine, quite likely the chafing of the rear wheel, and nobody can hope to escape every touch of soil. Grays, dark blues and dust colors are far to be preferred to any of the brighter tones. Black is pretty, but shows dust very quickly.

The bicycle costume illustrated is of navy blue serge. It has a moderately long skirt, trimmed around the foot with narrow mohair braid. The cotton jacket is trimmed in the same way and opens over a chemise of white batiste. The sleeves and sleeve caps are trimmed with braid. The belt is of tan colored kid. Tan shoes are worn and a white linen collar. The sailor hat of navy blue straw is trimmed with a band and plaited wings of black satin. JUDIC CHOLLET.
